

# Mandrake Linux 9.2

The new version of MandrakeSoft's Linux Distribution

## Simple, Fast, User-Friendly, Reliable, Powerful and Flexible.

From the simplest utilization as a desktop to a complete network deployment, Mandrake Linux 9.2 provides the best tools available on the market.

### Simple and Fast

The automatic installation process makes the new version of Mandrake Linux 9.2 the simplest distribution to install on the market.

### User-Friendly

The new 9.2 version offers a user-friendly environment and includes the latest versions of the most popular graphical interfaces.

### Reliable

You now have the best tools to secure your environment. Combine stability and security through software developed by MandrakeSoft such as Draksec (security system management) and a powerful firewall for an optimum protection.

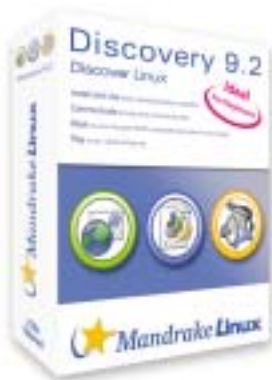

### Powerful

Mandrake Linux 9.2 includes support for USB2, Wi-Fi and the leading web server, Apache 2. With the Zeroconf Protocol, you can easily and rapidly configure all your peripherals and with URPMI, an exclusive MandrakeSoft tool, you can optimize and simplify the management of your applications.

### Flexible

Mandrake Linux 9.2 can be fully adapted to your needs. For instance, the Mandrake Control Center enables you to completely customize your environment.

#### Discovery 9.2 - Beginners

Discovery 9.2 is a user-friendly product especially designed for beginners. The menu is task oriented, with a single selected application per task. Easy to use, it is ideal to work, communicate and play.

- 2 CDs & 1 manual
